Your partner  
for  
Medical Device Services

“ Your Solutions  
are Inside ”

Mediliant is a **contract manufacturing** company in the Medical device industry.

Founded in 2013, we manufacture medical devices from raw material till sterile packaged products.

Located in **Switzerland** we deliver products worldwide.

We are providing to our customers a very responsive solution to their subcontracting needs with Swiss made products, complying to the different regulatory requirement (**ISO13485, FDA, ANVISA,...**).

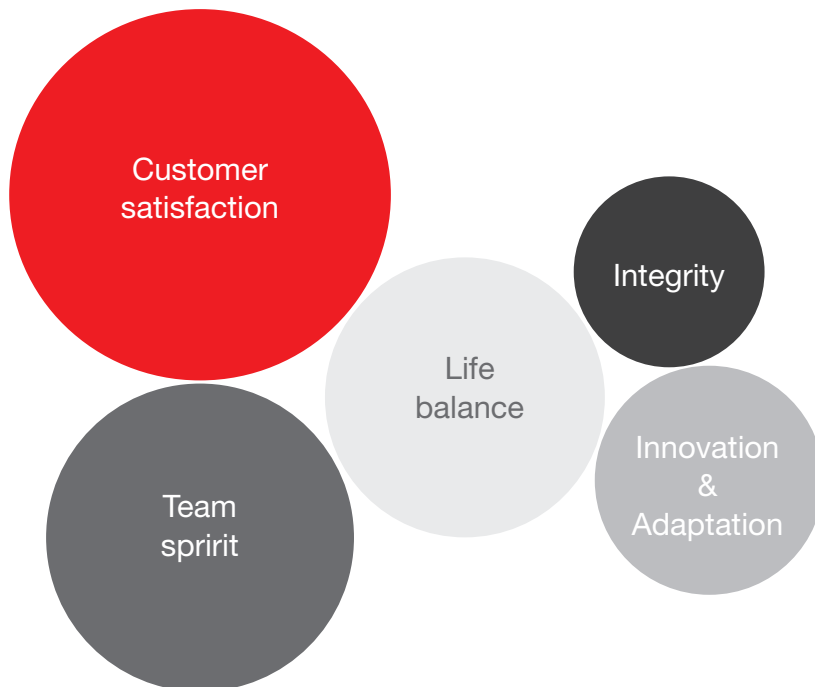

Mediliant is providing highly customized solutions to large and small companies.

By leveraging **the power of collaboration**, we will help you achieve shorter time to market, more robust product design, and highly effective product launches.

We offer a full range of capabilities from design support to full integrated manufacturing, assembly and sterile packaging.

# Values

“

Integrated  
outsourcing  
is the key to  
your success

”

## Services

Co-designing - Prototyping  
Engineering - Sourcing - Manufacturing  
Inspecting - Finishing  
Assembling and sterile packaging

# Capabilities
